

GREENBANK PRE SCHOOL

DAILY PLAN FOR CHILDREN WEEK 6 11.05.2020

MONDAY	<p>ZOOM with Mrs. French</p> <p>Get to know your coins. Find as many different coins (real ones!) up to one pound. Begin by finding different ways of making 2p, 5p and 10p. Then different ways of making 20p, and 50p. Then if you can, make one pound in different ways. You can record your findings by tracing around the coins or by taking pictures. If you find this task too hard, use your coins to make a little shop selling currant buns. I think Mrs. French will sing that number song with you!</p> <p>I am developing my awareness of how money is used and can recognise and use a range of coins. MNU0-09a</p>
TUESDAY	<p>ZOOM with Ms. Allan</p> <p>Have a go at making some kind of a minibeast. If you are out and about you will notice there are many bugs now- big bumble bees, different butterflies, wasps and too many greenfly that seem to stick to your clothes!!! You can use any materials you want and make your minibeast big or small. Have a look in your recycling.</p> <p>Within and beyond my place of learning, I can reduce, re-use and recycle resources I use, to help care for the environment. TCH0-02a</p> <p>Within real and imaginary settings, I am developing my practical skills as I select and work with a range of materials, tools and software. TCH0-12a</p>
WEDNESDAY	<p>ZOOM with Mrs. Okoth MUSIC</p> <p>Last week you had a little art lesson with David. I have attached what he did next to the painting. He has started to put colour into the spaces. You can try that with your painting too. See if it</p>

	<p>changes the things that you have painted. Has another face appeared? Or a dog or a cat? What other colour could you use to make these things stand out more?</p> <p>Inspired by a range of stimuli, I can express and communicate my ideas, thoughts and feelings through activities within art and design. EXA0-05a</p>
THURSDAY	<p>ZOOM with Miss Periss I have attached a plan to make a river raft. This activity links to the 'sink' and 'float' activity some of you did a few weeks ago.</p> <p>Through discovery, natural curiosity and imagination, I explore ways to construct models or solve problems. TCH0-14a</p>
FRIDAY	<p>ZOOM with Mrs. Um Recipe of the week today. Check the parent section of our website to get the recipe for this week.</p> <p>Together we enjoy handling, tasting, talking and learning about different foods, discovering ways in which eating and drinking may help us to grow and keep healthy. HWB0-30a I explore and discover where foods come from as I choose, prepare and taste different foods. HWB0-35a I am developing a sense of size and amount by observing, exploring, using and communicating with others about things in the world around me. MNU0-01a</p>

Don't forget to share your learning experiences with your keyworker!!
