## **Trips and Outings Policy**

Outings provide a range of learning opportunities for children within pre-school groups, and well organised outings demonstrate good practice. Outings may represent part of a group's everyday programme or they may be a special event. The former would make use of the facilities available for young children within the local area where children would be taken to venues such as the park, shops, community centre or library. The latter would represent events like a visit to a theatre or museum, which is not a part of the group's everyday programme.

Children should have a chance to learn about the outing beforehand and discuss it afterwards. The visit may fit in with the group's curriculum planning. The outing could be in response to something initiated by the children.

Relevant information will be provided to parents/ guardians regarding the outing as soon as possible after the venue has been decided. This will include date, times, travel arrangements, dress and food required, possible activities, number of adults in attendance and cost. Venues visited will provide us with risk assessments prior to the visit. Staff will risk assess the journey to and from the venue. The Risk Assessment will be shared with parents

Parent/guardian/carer helpers will be sought to accompany children. The adult: child ratio may vary depending on which children are going and where they are going. Adults will be provided with clear instructions on their role during the day and a copy of the risk assessment.

The group will seek permission from parents/guardians to take children on an outing. Parents/guardians will be issued with a consent form. Written consent will be obtained prior to a child going on an outing. Parents/guardians should speak to a committee or staff member if they have queries or concerns about an outing and/or about giving their consent.

We use public transport wherever possible. If we use a bus company, child restraints (seatbelts/car seats) will be checked to ensure that they are sufficient and appropriate to the age and weight of the children. In an emergency situation staff may transport a child with their parent in their car.

During the outing there will be frequent head counts to ensure the whole group or part group where the whole group has been split up can be accounted for.

The adult to child ratio on all outings must be at least 1:5. In the case of a water based activity e.g. swimming, this must be increased to 1:1. Where there is water such as a stream or lake etc. the ratio of 1:2 applies but the risk assessment must take into account the extra caution needed by all adults.
